

# RE10

Variable-D<sup>®</sup>

Dynamic Super-Cardioid

POLAR RESPONSE CURVE  
Scale is 5 Decibels Per Division

A fine, moderate-cost microphone for sound reinforcement, broadcasting, choir pickup and stage work. The RE10 is similar in design to the RE15, but meets requirements where somewhat more unit-to-unit variability is acceptable. It has effective directional control, little off-axis coloration, greatest rejection of unwanted sounds at 150° off axis and a bass roll-off switch. Use with 411 "mike mouse" for phase-interference-free stage pickup.
