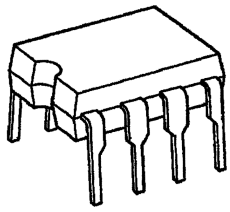
TOSHIBA BIPOLAR LINEAR INTEGRATED CIRCUIT SILICON MONOLITHIC

TA7555P,TA7555F

TIMER APPLICATIONS

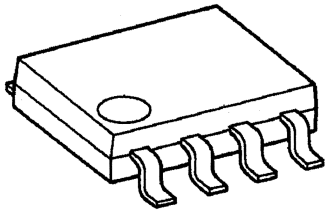
The TA7555P monolithic circuit is a highly stable device as producing accurate time delay or timing pulse.
Additional terminals are provided for triggering or reseting, if desired.
In the time delay or monostable mode of operation, the time is precisely controlled by one external resistor and capacitor.
In the astable mode of operation, the frequency and duty cycle are accurately and independently controlled with two external resistors and one capacitor.
The circuit of the TA7555P may be triggered and reset on falling waveforms, and the output structure can source and sink up to 200mA or drive TTL circuit.
Operation is specified for supplies of 5 to 15V

TA7555P



P-DIP8-300-2.54

TA7555F



P-SOP8-225-1.27

Weight P-DIP8-300-2.54 : 0.5g (Typ.)
P-SOP8-225-1.27 : 0.1g (Typ.)

FEATURES

- Timing from microseconds through hours
- Operates in both astable and monostable modes
- Adjustable duty cycle
- Output can source or sink 200mA
- Output TTL compatible
- Temperature stability of 0.005% / °C (Typ.)
- Normally ON or normally OFF output
- Direct replacement for SE555 / NE555

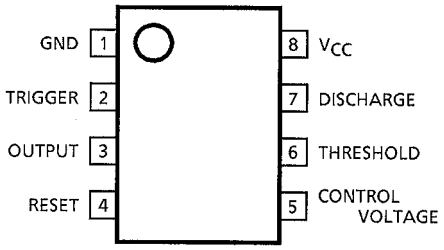
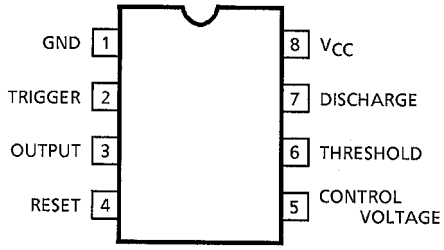
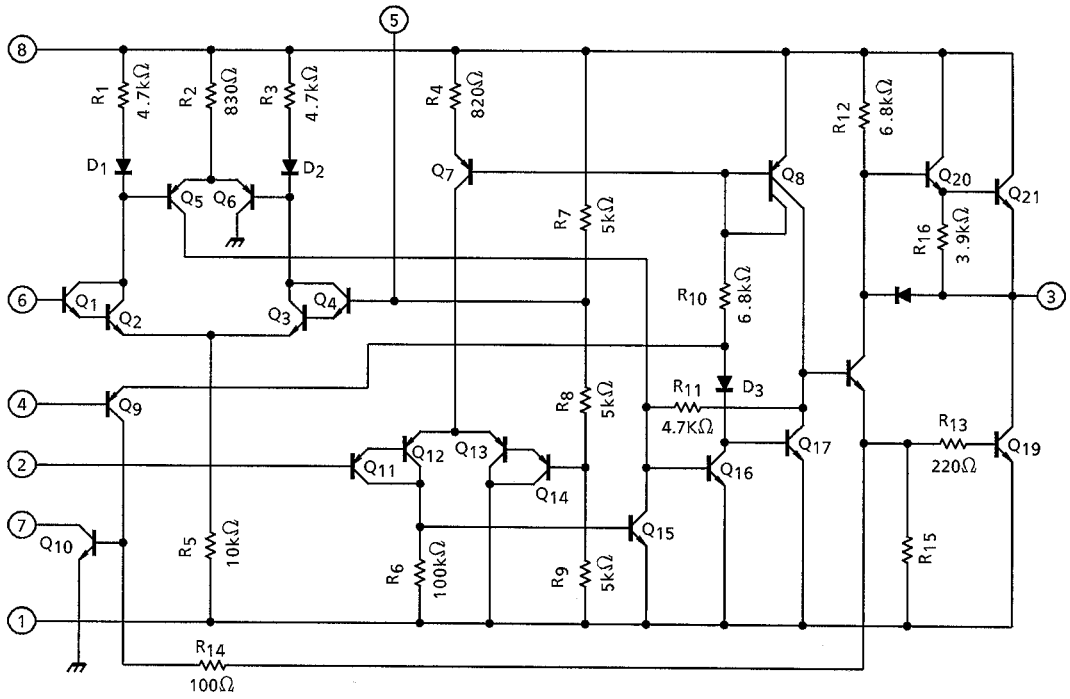
TA7555F



TA7555P



EQUIVALENT CIRCUIT



APPLICATIONS
- DC-DC CONVERTER
- LINEAR RAMP GENERATOR
- PULSE GENERATOR
- PRECISION TIMING
- SEQUENTIAL TIMING
- TIMING DELAY GENERATION
- PULSE WIDTH MODULATION
- PULSE

MAXIMUM RATINGS (Ta = 25°C)

CHARACTERISTIC		SYMBOL	RATING	UNIT
Supply Voltage	TA7555P	V_{CC}	18	V
	TA7555F		15	
Power Dissipation	TA7555P	P_D	600	mW
	TA7555F		240	
Operating Temperature		T_{opr}	−30~75	°C
Storage Temperature		T_{stg}	−55~125	°C

ELECTRICAL CHARACTERISTICS (Ta = 25°C, V_{CC} = 5~15V)

CHARACTERISTIC	SYMBOL	TEST CIR-CUIT	TEST CONDITION		MIN	TYP.	MAX	UNIT
Supply Voltage	V_{CC}	—	—		4.5	—	16	V
Supply Current	I_{CC}	—	V_{CC} = 5V, R_L = ∞, Low state		—	3	6	mA
			V_{CC} = 15V, R_L = ∞, Low state		—	10	15	
Control Voltage	V_{CT}	—	V_{CC} = 5V		2.6	3.33	4	V

RESTRICTIONS ON PRODUCT USE

000707EAA

- TOSHIBA is continually working to improve the quality and reliability of its products. Nevertheless, semiconductor devices in general can malfunction or fail due to their inherent electrical sensitivity and vulnerability to physical stress. It is the responsibility of the buyer, when utilizing TOSHIBA products, to comply with the standards of safety in making a safe design for the entire system, and to avoid situations in which a malfunction or failure of such TOSHIBA products could cause loss of human life, bodily injury or damage to property.
  In developing your designs, please ensure that TOSHIBA products are used within specified operating ranges as set forth in the most recent TOSHIBA products specifications. Also, please keep in mind the precautions and conditions set forth in the “Handling Guide for Semiconductor Devices,” or “TOSHIBA Semiconductor Reliability Handbook” etc..
- The TOSHIBA products listed in this document are intended for usage in general electronics applications (computer, personal equipment, office equipment, measuring equipment, industrial robotics, domestic appliances, etc.). These TOSHIBA products are neither intended nor warranted for usage in equipment that requires extraordinarily high quality and/or reliability or a malfunction or failure of which may cause loss of human life or bodily injury (“Unintended Usage”). Unintended Usage include atomic energy control instruments, airplane or spaceship instruments, transportation instruments, traffic signal instruments, combustion control instruments, medical instruments, all types of safety devices, etc.. Unintended Usage of TOSHIBA products listed in this document shall be made at the customer’s own risk.
- The information contained herein is presented only as a guide for the applications of our products. No responsibility is assumed by TOSHIBA CORPORATION for any infringements of intellectual property or other rights of the third parties which may result from its use. No license is granted by implication or otherwise under any intellectual property or other rights of TOSHIBA CORPORATION or others.
- The information contained herein is subject to change without notice.
